## PROJECTS

### Chatting Application

**Java, Socket programming**

📅 07/2024 - 08/2024   📍 Jehanabad, Bihar

- Java Chatting Application is a robust and scalable chatting application designed to facilitate real-time communication between users
- Built using Java, this application leverages the power of socket programming and multi-threading to provide a seamless chatting experience
- The project aims to create a user-friendly interface that allows individuals to connect and chat
- IDE: NetBeans

### ATM Simulator System

**Java, MySQL**

📅 06/2024 - 07/2024   📍 Jehanabad, Bihar

- The ATM Simulator System is a comprehensive software application designed to mimic the functionalities of an Automated Teller Machine (ATM)
- This project aims to provide users with a realistic experience of banking transactions
- Allows users to perform essential operations such as Cash Withdrawals, Deposits, Balance Inquiries, Mini Statement, Fast Cash and PIN Change
- Built using Java, JDBC and MySQL Workbench, the simulator employs object-oriented programming principles and provides a user-friendly interface for seamless interaction
- IDE: NetBeans
